# The Day of the Local Option Election.

## Local Option at Mayfield.

To Whom it May Concern: We the undersigned professional and business men of Mayfied, Ky., state that Mayfield has been a local option town for more than 30 years, and that as an evidence of the satisfaction of its citizens, from both a moral and financial standpoint, the majority for temperance was overwhelming at the last election, in fact the largest in its history. We have a prosperous town, of about 7,000, not a vacant business house in it, several new ones recently built and others under course of erection. A large number of dwelling houses have been erected this year. Our laboring people are prospering and well provided for, and their earnings, which in whisky towns usually go to the saloons, are here expended for the neces-saries and pleasures of their families. We Most Heartily Endorse Local Option.

Signed.

# LOCAL OPTION AT CAMPBELLSBURG.

To Whom it May Concern: Campbellsburg has been under local option for a number of years. The fact that only four votes were cast against it at our last election, which was held just a short time since, shows that our people are thoroughly satisfied without saloons. We do not hesitate to say that our town has been greatly benefited both in a moral and financial way, by the voting out of whisky from our midst. Our home life is better, our public morals are better, and we now have a perfectly safe town in which to raise and educate our children. No man who has boys, ought to hesitate one moment in deciding what to do when it comes to a vote on local option. Local option will also help the business of any community.
